# **Daikeen Lockett**

Software Engineer

Email: daikeen\_lockett@yahoo.com | LinkedIn: linkedin.com/in/daikeen-lockett/

Portfolio: heroku.com | GitHub: github.com/dlockett133

#### Summary

Passionate and driven problem solver with a versatile skill set, equipped with full-stack web development training and experience in a dynamic, agile team setting. Possessing a unique blend of logical and creative thinking, I am poised to craft innovative web applications and features, while continuously expanding my knowledge and expertise.

## **Technical Skills**

Programming Languages: Javascript

Web Technologies: React, Node.js, Express, GraphQL, HTML, CSS, Bootstrap

Databases: SQL, MySQL, Sequelize, MongoDB, Mongoose

## **Projects**

# Weather Or Not

Deployed site: <a href="https://montinesproul.github.io/the-a-team/">https://montinesproul.github.io/the-a-team/</a>
GitHub Repo: <a href="https://github.com/MontineSproul/the-a-team/">https://github.com/MontineSproul/the-a-team/</a>

- Description: A scheduling app with a weather forecast for the next five days, using an account-based calendar system that ensures privacy and security for each user.
- My Role: Contributed to front-end/back-end tasks incl. designing login/sign-in & calendar pages, setting up Sequelize models, creating fetch calls/routes, integrating weather API, and implementing logic for 5-day weather forecasts
- Technologies: Node.js, HTML, CSS, MySQL, Sequelize, API, Express, Bootstrap, JawsDB, Heroku

## **WeatherMann**

Deployed site: <a href="https://montinesproul.github.io/the-a-team/">https://montinesproul.github.io/the-a-team/</a>

GitHub Repo: https://github.com/MontineSproul/the-a-team

- Description: A weather and walkman app that creates custom playlists based on the temperature of your location.
- My Role: setting weather conditions to generate a Spotify playlist <iframe> embed and generating a location/city background image via the Unsplash API.
- Technologies: JavaScript, HTML, CSS, API, Bootstrap

# **Experience**

Software Specialist, Calendly, Atlanta, GA

2021 - Present

- Managed customer support with Zendesk, SuperAdmin, and Twilio for timely issue resolution and effective communication with customers.
- Conducted user research, optimized email communication, tested new features, troubleshoot bugs, and trained new team members to improve the overall customer experience.
